

Phase 10: Final Presentation & Demo Day

Objective: To prepare and package all final submission materials, including a presentation, a demo video, and the required documentation for each project phase.

Key Activities & Outcomes:

- 1. Presentation Slides:** A concise, 4-slide presentation deck was created. The presentation summarizes the project's problem statement, the solution, the key technical features implemented, and the overall business impact.
- 2. Demo Video Script & Recording:** A detailed, shot-by-shot script was written to guide the recording of a professional, 4-5 minute demo video. The script follows a clear user story, showcasing every major feature of the application from the manager's dashboard to the loan officer's daily workflow.
- 3. Phase Documentation:** Detailed documentation was created for all 10 project phases. Each document outlines the objective, key activities, and outcomes for that phase and includes supporting evidence (screenshots, code snippets, or diagrams) to prove the work was completed. These were then saved as individual
